THE VAULT™

Safe and Sound

Protect valuable sample cylinders against costly damage during transport and shipping.

M-Series

- 5052 aluminum case with aluminum exoskeleton
- PrecisionFoam™ lining
- Lay flat lid wi

F-Series

- Fiberglass case
- Convulated foam lining
- Heated option
- Lay flat lid with full-length continuous hinge

P-Series

- Enhanced polypropylene case
- PrecisionFoam™ lining
- Soft grip handle
- Stay open lid
- Wheels*
- Retractable handle*
- Reinforced metal padlock holes*
- Locking latches with keys*

*Not available on all sizes

DESIGNED FOR TRAVEL

On the Go

The Vault™ Carrying Cases protect DOT 3E and 3A cylinders as you transport them between the field and the laboratory. All cases have at least one handle for portability.

Take a load off! Select cases from the **P-Series** have wheels and a retractable handle to reduce operator strain and improve maneuverability. With padlock holes and locking latches, these cases provide added security.

DURABLE CONSTRUCTION

Serve & Protect

Let's face it—transport isn't always a smooth ride. These hard-wearing hard-sided cases protect your sample cylinders from the bumps, drops, and falls you may encounter on the road. A watertight seal keeps unwanted moisture and dust out while also keeping unpleasant odors in.

CUSHIONED SUPPORT

Maximum Security

Foam lining holds your sample cylinders securely in place. **F-Series** cases are lined with thick convoluted foam. The peaks and valleys gently cradle your cylinder while also absorbing shock. Able to easily recover its shape, the convoluted foam enables F-Series cases to accommodate sample cylinders with a variety of external hardware.

The PrecisionFoam™ lining **P-Series** and **M-Series** cases is custom cut to conform to your sample cylinder. This tailored support ensures your sample cylinder does not move within the case during transport.
