

Scale-X™ Dithiazine Remover

Scale-X™ is a non-toxic, non-hazardous acidic cleaner and descaler.

Application

Over time, amorphous dithiazine—an insoluble solid produced when certain amine-based hydrogen sulfide (H₂S) scavengers react with hydrogen sulfide (H₂S)—collects inside valves and instrumentation, reducing flow. Scale-X™ is specially formulated to dissolve this buildup and optimize flow performance.

Directions for Use

Wear appropriate personal protective equipment (PPE) during use. Directly spray onto affected parts until soaked. After allowing an appropriate amount of time, wipe the treated surface. No rinsing required.
